Color-coded variety-blades:

- aluminum retractor blades
- Complete set includes 60 color-coded blades in 5 configurations
- Blade lengths range from 30 to 75mm; additional lengths available
- Color-coded depth gauge for accurate size determination

Additional blades:

- Titanium radiolucent blades for added strength
- Wide Delta blades for multilevel retraction, lengths 30mm to 60mm
- Narrow micro blades permit minimally invasive retraction, lengths 35mm to 60mm
- Blades sold individually

RETRACTOR FRAMES

Offers a variety of options for connecting your chosen blades to the retractor frame.

Low-profile, hinged retractor frames conform to the contours of most patient anatomies

blade hub and auto-locking blade grasper are designed to ensure stable and accurate blade attachment to eliminate blade misalignment

Side-loading the blade is quick and easy to either the transverse or longitudinal retractor frame and performed in one simple motion

Transverse
AI-16-120
AI-16-150

Longitudinal
AI-19-0078

Can be used in a variety of procedures including:

- Anterior Cervical Discectomy and Fusion
- Posterior Cervical Discectomy and Fusion
- Hemi-Laminectomy
