Vaginal retractor self-retaining provides adequate exposure for the obstetrical to work on the ante or postmortem cervix without an assistant. Stainless steel ring is 23 cm / 9" in diameter. Three identical stainless steel right angled retractors with blades 4.4 cm / 1 1/4" wide by 10.2 cm / 4" deep, have 20.3 cm / 8" handles, and may be placed anywhere around the ring. The angle and counter traction of the blades serve to hold the retractor securely in place.
